We thank you for giving us the opportunity to analyse your birth charts.

It is not Vedic Astrology's purpose to replace an individual's responsibility to decide for themselves or to present a fait accompli forecast for the future. We believe that you control and shape your own destiny by your Karma and your efforts. However, this report tells you, how much and when the planets will be supportive for you or they will be challenging and can create obstacles and difficulties on your path.

We believe that stars will influence only 75%, and rest 25% is controlled by your own actions. However, sometimes that 75% may become critical over which you may not have any control.

## Preamble:

YYY and XXX, as the two of you feel emotional bonding with each other and would like to know the forces of nature or planetary vibrations that could influence your relationship internally as well as externally. While going through the details in this report you will learn the various factors in your personalities or self that are already in harmony, bringing the two of you together and certain areas of struggles or challenges, that needs your attention and effort to be able to nurture this relationship.

## Ascendant Compatibility:

Ascendant is the most unique signature in our horoscope. Ascendant (Janma Lagna) in our chart signifies the way we shall express our body, mind and soul to the world at large in this life. Ascendant compatibility will give important clues to our personality and nature. It also gives us important clues to our personality and nature and the way we shall interact with our partner in our life together.

### XXX's Ascendant:

Your Ascendant is Capricorn which is ruled by Saturn. This is also a cardinal sign but with earth element. As sign number 10, it shows the state of power, order and complete organization. Capricorn is often the lowest and the highest of signs in terms of achievement in life. It is the sign of practical realization and usually Capricorn person are very practical and pragmatic and are not emotional or very sensitive.

On the material level, this can create much worldliness and obstinacy and make the person selfish. You will be hardworking, persevering and tenacious, and have the power of eventual great accomplishments. You may start slowly in life often encounter many obstacles along the way, but thereby create the energy for long term success.

What is true for life, the same will be true in relationship. The life together may not start with great love and passion, but eventually you can build a strong emotional bonding with your life partner. Because you have to work for yourself and learn to value everything that will come through your own effort and experience. You do not start with great expectation in life together, but if your partner is patient and sensitive to your nature eventually both of you will be able to build a strong emotional bonding which will then sustain the life together.

### YYY's Ascendant:

Your Ascendant is Leo which is ruled by Sun. It is a fixed sign with fire element. As sign number 5, it shows a need for order and harmony around a central will and character. In life together, this central will must be around you which your partner must tune himself in. You will possess a strong sense of self, character, and will in life. You basically know who you are and will want others to recognize it including your life partner.

You may often appear to be proud, bold, ambitious and aristocratic, which will be the most attractive part of your personality that your partner will relate to. Your response to your partner will often be dramatic, sometimes vain, in your self-expression. You would always like to draw the attention of others to yourself, and be the center of attention. In life together, you will constantly expect the strokes of approval from your partner. You will have a strong and noble heart, but can suffer from too powerful emotions or too much need for attention.

It is difficult for a Leo person to sustain a relationship unless the partner is somewhat inferior to her own status whether socially, economically or at the intellectual level. You will have a high standard for yourself. For this reason, you can become very dejected if you fail or do not succeed as much as you wish. Such fallen Leo types can be most miserable. It is during such crisis, her partner has to be very supportive to sustain the life together. You must be aware of your tendency to dominate over others specially over your partner in life together. If you become too dominating, then specially a partner may in turn rebel against you and can walk out of the marriage.

In XXX's horoscope, Capricorn sign is rising in the ascendant, a movable, earthy sign ruled by the planet Saturn. Capricorn sign rising in the ascendant generally indicates a hardworking and a self-reliant person. He will appear very dynamic on surface, but will be fixed or stable in his thinking and perception.

In his horoscope, ascendant lord Saturn is placed in the fourth house in debilitation and retrogression. Weak and afflicted Saturn placed in the fourth house of the horoscope, will make him socially less active or interactive. He will be very selective about his friends and relatives. He may not be able to fully enjoy his family life due to his various commitments in life. He will also experience several ups and downs in his career with slow professional growth, after constant struggles. Saturn will give him a rather head strong personality.

In YYY's horoscope, Leo sign is rising in the ascendant, a fixed and fiery sign ruled by the planet Sun. Generally people born under this sign, are strong, having aristocratic personality. In society they hold authoritative position in whatever role they play.

In her horoscope, ascendant lord Sun is placed in the house of profession with malefic Saturn. It is also receiving aspect from auspicious Jupiter. She will hold a high and authoritative position in her career. She will be a very learned person and will also be associated with some institution or organization. Despite her strongly independent personality, she will have a friendlier or social nature, and her personal magnetism will draw people towards her.

Although she will have a warm and social personality, yet in certain situations she may appear more authoritative or bossy towards her close relatives and friends.

Overall, the two ascendants are not very compatible, mainly due to the lordship of ascendant by Saturn and Sun, who are naturally inimical towards eather. Socially

two of you will have very different personalities and perceptions. Although you both believe in hard work yet, your different approach perceptions can sometime lead to major ego clashes between the two of you.

## The interaction between your two Ascendants:

You relate to either Pragmatically like “The monarch and the president”. You both like sticking to certain forms and social conventions, for this is what maintains the rule and order that you love. However, trust and patience will be needed to relate to the sensitive soul in each of you that exists behind that power mask, and to wait for it to emerge. If not, relations can become decidedly frosty.

## THE DIALECTICS OF RELATIONSHIP BETWEEN THE TWO OF YOU:

### For XXX's:

#### Leanings

**Responsibility** - Without a serious purpose to your relationship, which must be observed and adhered to, it would not exist at all. This can mean that the relationship has responsibility as an inherent part of it or that that is precisely what is imposed upon you in order that you may learn from it.

**Tradition** - You are inclined as a couple to follow a quite conventional route in your relationship - namely marriage, officially or unofficially. But whether you remain together because you want to or have to is another matter, as too is how it appears on the outside not necessarily concurring with how you are in private.

**Regulation** - An order and pattern to your life is something that seems to get installed one way or another. Possibly you are in a business together which dictates this. Whether it is that, or running home and family, you make it into a businesslike affair with routines, economy etc.

#### Advantages

**Dutifulness** - Because you conduct your relationship in such a responsible manner, you come to rely upon one another more and more as time goes by. And with time come trust and the learning of valuable lessons, which enable you to build your relationship into something lasting.

**Objectivity** - You are not a pair to let emotions get the better of you to a point where you overlook the practical realities of your relationship and the context in which it exists. Whether it is a family, a business or anything else you are jointly responsible for, you both see what has to be done, and do it.

**Constructively** - Being practical and aware of material issues- or at least when the relationship has made you so- you set about ensuring that you and yours amount to something in the world at large. Professional plans and activities (should) come high up on your list of priorities.

## Weaknesses

### **Coldness**

Not surprisingly, a disadvantage of the above described practicality and objectivity is that your respective inner feelings get overlooked or suppressed. In time, this could find you seriously out of touch with the very feelings that endeared you to one another in the first place.

**Rigidity** - Whatever pattern or order you have devised, possibly over years, to create stability and security, could devolve into tramlines that you have to keep to day in day out. If this has made your relationship stale and turned it into a meaningless drudge, then consciously introduce some change and flexibility.

**Austerity** - Economy is one thing, but denial is another. An almost Dickensian set of values can creep up on you both, causing you, either emotionally or materially, to be mean with yourselves, and possibly others too. This would reflect the degree to which the love and soul had drained from your relationship owing to that coldness and a need to control.

## For YYY's:

### Leanings

**Playfulness** - A sense of drama and of the game of life is vital to this Theme. Playing in the way that children do (make believe, costumes, characterization, pet names, etc) create a sense of life being fun and romantic and not just a lack luster, day to day business. Parties, passions and highs and lows are what this Theme thrives upon.

**Creativity** - Art or some other form of self expression, individually or together, gives and maintains the sense of personal uniqueness and self esteem that creates the all important mutual respect essential to this Theme. Having and bringing up children is also regarded as creativity.

**Hierarchy** - Who's in charge of what is a serious issue, so this relationship must consciously and deliberately devise and agree upon individual duties, positions and rights- or else chaos can reign. Having a sense of respect for one another- and respect from other- is important.

## Weaknesses

**Pride** - This is really an over sensitivity towards having dirty laundry aired in public. This relationship does not like the world to see any cracks in it. But ironically, what are regarded as shortcomings by this couple are probably regarded as quite normal by ordinary, lesser mortals.

**Melodrama** - This is a case of making a crisis out of what could have been simply passed over as an everyday emotional hiccup. Such a reaction stems from this Theme's sense that life should always be larger than it actually or usually is. Such a crisis can turn into a real disaster.

**Elitism** - There is a sense of specialness to this relationship that can unfortunately devolve into an exclusiveness that allows very few people into it. This can eventually result in a somewhat incestuous affair that drowns in an excess of itself, and suffocates for lack of external input.

## The Moon-Sign Compatibility:

Moon in our horoscope shows our general propensity for relationship and how we will interact with our partner in life together. The moon gives us sensitivity of human feeling, a strong social consciousness, and a need to exchange emotions. It makes us require that our feelings are recognized in life and shared by others.

XXX's Moon-sign is Scorpio, ruled by the planet Mars. It is a watery and fixed sign and it falls in the eighth house of natural zodiac. He may be a highly emotional and sensitive person. He will also have a tendency to hold back his feels, which may even affect his mental and emotional health. Scorpio being a fixed sign also makes him stubborn or fixed in his ideas. In his horoscope, there are no planetary influences on the Moon-sign, indicating that he would require a constant mental support in his life and with this support he will be able to achieve great heights in his life.

YYY's Moon-Sign is Virgo, ruled by the planet Mercury. It is a dual, earthy sign. People born under dual sign are generally slow decision makers, since they are affected by dualities of life. They have a naturally developed sense of creativity. They are also experts in the art of communications.

In her horoscope, also there are no planetary influences on the Moon sign indicating, that she will also require a mental or emotional support, to lead her successfully.

Moon signs in the two horoscopes are compatible, since the two signs are mutually 3-11 to each other, indicating that they will be supportive of each other in actions and thoughts and they both will also need each other's mental support constantly to deal with challenges of life. However, due to the very nature of Moon signs in the two horoscopes, XXX will have a more emotional personality compared to YYY who will be more of a practical person. Despite their different individual personalities, they will be supportive of each other; therefore, the Moon- signs in the two horoscopes are compatible.

## THE INTERACTION BETWEEN THE TWO MOON SIGNS:

You relate to each other Exactly like "The advisor and the SPY". Virgo partner's prudence can teach Scorpio the wisdom of leaving some stones unturned, whereas Scorpio partner's emotional insight can stop Virgo from being such a goody-two -

shoes. But this interchange will work only if you both consciously agree to this kind of 'deal'. Yet even if you do, such mutual cleansing and pursuing can exhaust you both.

## **COMPATIBILITY ANALYSIS FROM DIFFERENT ASPECTS (8-FOLD TESTS)**

The horoscope matching that is done in traditional Vedic astrology is essentially based on the compatibility between Moon-signs in the respective charts of the couple. This is called "Kundali Milapak" report between the two charts.

Kundali Milapak is a unique and ancient 8-fold test of horoscope matching between a man and woman's charts for marriage. This ancient technique of Vedic Astrology was formulated about 3,000 years ago and compares various aspects of the natal chart taking the Moon sign in the chart as the primary factor.

The Natal Charts of the man and woman are drawn and comparatively tested in eight different ways. Each test has a score. While the maximum points that can be achieved under each test are different, the 8-fold test can yield a maximum score of 36 points. A score of 16 is deemed to be the minimum for a reasonable match. Marriages are not recommended for a result below 16.

### **Modern Relevance**

Since these tests were formulated 3,000 years ago and based on the social norms and the role of marriage in the ancient society, we have also made this ancient test applicable to the new millennium by pointing out the basis of how the tests were scored, so that you can apply your own judgment of how important a particular aspect is in your personal relationship.

Although the techniques and the basis of this comparison originated in ancient times, the analysis has not lost its relevance today. This analysis brings out the difference in personality and nature between two people in a quantitative and more precise manner than any other astrological tool. It proves to be very accurate and relevant even today in gauging compatibility and the areas of strengths and weakness in a relationship.

### **The Scoring System**

In presenting you this analysis, we have maintained the integrity of ancient principles in the scoring system and the weightage given to various aspects. However, we want you to understand the principles behind it completely, so that you can understand the various aspects of your relationship in which you are completely compatible and where the problem areas may lie so that you are able to work on it.

In ancient times, the fundamental purpose of marriage was to carry on the lineage in a manner that increased the material and spiritual prosperity of the couple within the norms of social behaviors in that time. It is also to be understood that Women had been relegated to a subordinate or inferior role in the Man/Woman Relationship. The role of the woman, be it the Queen or the wife of an ordinary

man in society, was at home and the primary responsibility was to look after the comforts of the husband, take care of the children as well as his parents and his entire family.

The system by which this test assigns scores is that when and if in a relationship, the horoscope chart of a woman rates higher and is superior in intellectual, mental or physical powers than the chart of the man's, then the test will fail and there will be a low score or a zero score. The highest score is also given in this test in a woman's ability to be a mother.

We encourage you to study this test very closely for its ability to point out the difference in personality and ego between two different people and their strengths and weakness in maintaining a nurturing, caring and growing relationship over time.

I will advise both of you to go through this report very carefully and understand the significance of each of the 8 tests of compatibility and also the significance of the score obtained by each of the 8 tests.

### **The First Test: Mental Compatibility (Varna)**

This test has a maximum value of 1 point and shows the basic potential of a person and the person's inherent skills and abilities. This also includes the personal egos of the partners and compatibility between their egos. A partnership in which the woman has higher intellectual and spiritual qualities will score low in this test.

For purposes of this test, personalities are divided into four classes to indicate potential and inherent abilities. They are as follows:

**Brahmin or Priests** - They are the intellectuals and philosophers. Their role in society is that of a Guru or a teacher. They were traditionally spiritual leaders and were not expected to perform physical labor. Society looked up to them and looked after them. They have a high development of spiritual and mental ability.

**Kshatriya or Warriors** - They form the leaders and the ruling class who are powerful people and master of strategy and battle. They were traditionally the Kings and protectors of society. They are considered very courageous and are decisive in their actions.

**Vaishya or Merchants/Business people** - They belong to the professional or business class of people who perform all the useful and economic functions of society. They are skilled in different crafts and professions, signifying tremendous abilities.

**Shudra or Laborers/Service people** – They belong to the normal hard-working class who had a tremendous sense of service to society. Majority of the work in society fell upon them; hence they also have an inherent sense of responsibility.

She will have regard for him and will be devoted to him. He will also respect her views. Hence, the mental and ego compatibility between them will be excellent.

### **The Second Test: Power compatibility (Vasya)**

This test has a maximum value of 2 points and shows the power equation between the partners. It also reflects who will be the more dominant partner in the relationship.

For the purposes of this test, Vedic principles again divide personalities into 5 different categories reflecting the difference in power status. These are classified by symbol of different living creatures. The test scores the compatibility between these classifications and the inherent or natural balance of power. Once again, if a woman has a higher power status, the score will be low. The classifications are as follows:

**Manav or Human.** Humans are normally individualistic, they like to have control, have their own opinions and the power to discriminate.

**Vanchar or Creature of the Jungle.** Jungle creatures that are powerful and those that are higher in the food chain like Tigers, and Lions, etc. fall into this category.

**Chatuspad or Four-Legged Creature.** Animals that are less powerful like deer and goat and sheep fall in this category.

**Jalchar or Creature of Water.** Once again they have their own power and their own sphere of influence.

**Keet or Insect.** They are essential to any ecological balance and exert a quiet power that is essential for survival. Thus, they have their own strengths and area of influence.

However, he is flexible by nature and hence this test indicates average results.

### **The Third Test: Birth Star Compatibility (Tara)**

This test has a maximum value of 3 points and indicates the health, well-being and longevity of the partners after marriage. This test reflects if marriage is favorable or unfavorable in promoting longevity and health of each partner.

For purposes of this test, the inter-relationship of the birth stars (Tara) are looked at and compared. Vedic Astrology rates the inter-relationship as being naturally auspicious or inauspicious. This test rates the relationship of the birth stars as reflected in each partner's natal chart.

There are 9 categories of birth stars—Janama, Sampat, Vipata, Kshema, Pratyari, Sadhaka, Vadha, Mitra and Ati-mitra. The counting is done from Her Birth Star to that of His and from His Birth Star to that of Her's. If by dividing eaf them by the other, the remainder comes to 3, 5, 7 then the Tara is inauspicious. Physical and sexual compatibility (Yoni) .**

The minimum score of 0 is obtained in this test when the Yoni. or the animal characteristics personified, of Man and Woman are natural enemies. ### The Fifth Test: Planetary Harmony (*Grahamaitri*)

This test has a maximum value of 5 points. It shows progeny prospects, mental qualities and mutual affection between the partners. It also shows one's outlook, objective, and intellectual level as well as spiritual plane of existence. It reflects the fundamental difference in daily behavior, attitude and norm by which the man and woman relate to eather. For the purposes of this test, the relationship between the different planetary lords of the Moon Sign in each partner's natal chart is compared. In both day-to day-issues as well as complicated matters they are likely to have tensions and differences. Their attitude may lead to clashes of interest and ego. Hence, this test does not indicate favorable results at all.

## The Sixth Test: Compatibility of nature (*Gana*)

This test has a maximum value of 6 and shows the nature of the two different individuals at a mundane level, and indicates the compatibility of temperament and mutual daily behavior, for happiness and prosperity in their lives.

They are as follows:

**Devata or Godly** – This represents a person who is more spiritual than materialistic.

**Manushya or Mortal** – This indicates a person who has an even balance between the spiritual and the materialistic.

**Rakshasa or Demon** – This represents a person who is more materialistic than spiritual

This is an important test with high values. The maximum point of 6 is obtained when both partners belong to the same 'Gana'. This signifies an identical outlook towards life. The scores in this test can be 6, 5, 1 or 0. The minimum score of 0 is obtained when either partner belongs to a "Demon" category. However, if both were to belong to the Demon category, the score would be high. Marriage or a long-term relationship between inimical Ganas brings quarrels, disharmony, separation and divorce.

Both are likely to co-operate with each other in almost every aspect of life and thus both are likely to lead a peaceful and progressive life. Hence the result of this test indicates excellent results.

## The Seventh Test: Compatibility between Zodiac Moon signs (*Bhakut*)

In this age of modern science and technology, where the most advanced medical facilities are available, this score should be considered in light of this factor. In addition, in those relationships where birth of children is not required, this score can be completely discarded from the overall points and the points scored.

## Conclusion

Maximum Score Possible = 36

Total Points Scored = 28

## CONCLUSION OF KUNDALI MELAPEK:

In this eight pointer Kundli melapek, the compatibility score is 28 out of 36, which is a good score. A closer look at the table indicates specific factors of compatibility and incompatibility. In this table there are good scores in 'Nadi, 'Bhakut' and 'Gana'.

Nadi match is generally seen for promises of begetting healthy progeny. In your horoscope favourable scores in this index not only indicate marital bliss and better prospects for getting a healthy progeny. Supportive scores in 'Bhakut, mainly reflects their financial prosperity/status that is likely to improve as a result of this marriage and they both are likely to co-operate with each other in almost every aspect of life.

There are also favourable scores in 'Gana' match, as both of you belong to same gana. High scores in this factor indicate high mental, emotional and behavioural compatibility. As a result of this compatibility your intellectual thinking and ideological thoughts would also be similar.

Apart from the above mentioned aspects, there are factors that still need to be improved, in order to develop a better and harmonious relationship. Scores in 'Grahamaitri, and 'Tara' match are weak and unfavourable. Weak scores in 'Grahamaitri' match, indicates that both of you are likely to have different perceptions and views towards life. Differences are likely to be more on intellectual and behavioural fronts. These differences in ideas and perceptions may at times take the shape of ego clashes, which can bring tensions and disturbances in married life.

There are average scores in 'Tara' match, which mainly indicate mediocre material or financial success. Average scores in this factor also difficulties problems related to progeny.

Overall, the two charts, although have more than average compatibility in the eight fold compatibility test also known as Ashtakoot Milan. The scores in this in table broadly indicate they both will be supportive of eather, and may therefore have abundant financial prosperity after marriage, and they would also be mentally and emotionally supportive of eather.

However, they may also have different ideas and perceptions about life, that may sometimes lead to ego clashes. Therefore, although this match is passable, they will need to improve the weaker aspects in their personality, as indicates in the table to be able to lead a happy and harmonious married life.

### [The Mars compatibility and Kujadosha between your respective charts:](#)

Mangalik chart and Non Mangalik chart is a term most familiar in India. It is also called "Kujadosha" between the charts.

Kujadosha or Mars affliction is an astrological condition which negatively affects a person's married life and domestic harmony. It occurs when Mars is in the 1<sup>st</sup>, 4<sup>th</sup>, 7<sup>th</sup>, 8<sup>th</sup> or 12<sup>th</sup> house, unless it is posited in a sign designated as an exception for that particular house.

These exceptions are as follows:

Mars in first house, unless posited in Aries. Mars in the 4<sup>th</sup> house, unless posited in Scorpio. Mars in 7<sup>th</sup> house, unless posited in Capricorn or Pisces. Mars in 8<sup>th</sup> house, unless posited in Cancer. Mars in 12<sup>th</sup> house, unless posited in Sagittarius.

For a detail analysis, position of Mars must be checked in the same manner not only in Natal (Lagna) chart, but also in Moon-Sign (Rashi) chart and also in Navamsa ( 9<sup>th</sup> harmonic chart).

The effect of Kujadosha is to cause a person to be somewhat victimized in his/her marriage. This can of course occurs in any number of ways, but ultimately one is likely to end up divorced and generally through no obvious fault of one's own. The person will also have to endure hardships in the marriage generated by the spouse.

The way out of this problem is for a person with Kujadosha to marry another who also has it. A person with Kujadosha does not have the nature to victimize his spouse, and therefore if both partners have the condition, it's effect is neutralized. This is the usual procedure in cases of arranged marriage in India where horoscopes of the couple are matched before the go ahead is taken.

However, the problem does not really get fully solved, even if this precautions are taken while deciding about a bride/ groom.

The mechanics of Kujadosha are such that it causes a person to be attracted to a partner who by his/her very nature cannot blend or function compatibly for any great length of time with that person who does not have Kujadosha in his/her chart. Therefore one is quite simply at the mercy of his/her fate and the marriage may eventually come to an end.

However the most significant problem is a person with Kujadosha will not feel much physical attraction or any special chemistry for another who also has Kujadosha in his/her chart. In such cases the marriage may be saved but excitement and passion may soon vanish within a few years of Life Together.

### **XXX's Chart:**

In his chart, Mars is placed in the twelfth house from ascendant, aspecting the house of marriage, making his horoscope Manglik. It is also placed in the second house from Moon-sign, making the chart doubly Manglik.

In the navamsha chart, generally seen for happiness in married life, Aries sign is rising in the ascendant. Mars as ascendant lord is placed in the seventh house, also making the navamsha chart Manglik.

### **YYY's chart:**

In her horoscope, Mars is placed in the sixth house from the ascendant or lagna and it is placed in the fifth house from Moon-sign. Therefore, her horoscope does not carry Manglik dosha.

In her horoscope, Virgo sign is rising in the navamsha, and Mars is placed in the house of gains in debilitation. There is no Manglik dosha in her navamsha chart.

Mars being a fiery and naturally malefic planet, when influencing the house of marriage adds passion to an individual's personality. Also being a naturally malefic planet, it blemishes the house of marriage, causing delays and difficulties in marriage. Differences in the two charts, mainly due to the presence of this yoga only in XXX's chart can lead to disturbances in married life and can also impact the physical health of non Manglik partner (YYY). Therefore, based on Manglik dosha consideration these two charts are not compatible.

## **The role of Venus in respective charts:**

Venus is the planet for love and passion in our chart, both emotional love as well as physical passion. Venus in the chart indicates the way we will express or project our love to our partner as well as the way we would like to receive love from our partner in a relationship. A good and harmonious Venus between the charts will go a long way to build a strong emotional and physical bonding between the couple which in turn can sustain and nurture the relationship over a long period of time.

### **1) THE MEANING OF LOVE IN YOUR LIFE**

### XXX's Chart:

Love for you is something that has an excruciatingly fine line between being true and false, acceptable and unacceptable. You have a very delicate and discerning sensibility, but you do not want it crushed or abused by indiscriminate treatment. This very critical inner state can attract just what you want, or find no one at all who measures up, or by way of compensating for such fastidiousness, cause you to succumb to some mere fancy.

### YYY's Chart:

Love for you is something that has to happen quickly, like at first sight, almost as if you are taken by storm. There also has to be childlike, spontaneous quality to it that never settles down into an 'adult' rut of habit and predictability; love has to make something happen. The dark side to your particularly bright love nature is that you can be self-centred, impetuous and emotionally immature, causing you to give in to mere fancy.
